- Taekwondo

SCHOOL PROJECTS

Biomorphic Fashion 2024

- Designed a collection inspired by biomorphic forms, incorporating organic shapes and structures.

Final Year Project 2023

- Developed a sustainable collection inspired by dynamic sculptures

NG ENG KI

As a Fashion Design and Textiles student, I enjoy exploring how materials and textures shape the way garments are created and worn. With experience in sewing, pattern work, and design development, I value good craftsmanship and attention to detail. I'm currently learning CLO3D to further develop my technical understanding of garment construction.

EDUCATION

LASALLE College of the Arts, Singapore 2024 - Present (Expected Graduation: 2027)

Bachelor in Fashion Design and Textiles

Temasek Polytechnic 2021-2024

Diploma in Apparel Design and Merchandising
